propelo 
education experts, on demand

Schools and academy trusts need the very best people. The most effective leaders. The highest quality interim support. The top sector specialists. Propelo delivers that expertise. On demand.

Capacity, when you need it

Our team combines sector leaders in school improvement, recruitment and central operations. Together, we help schools and trusts find the people and solutions that move them forward, faster.

From helping to attract, recruit and retain talent, to securing an effective interim school leader during a time of change — we're a knowledgeable partner you can depend on, when you need it most.

And it isn't just school-based support. We operate across all key central functions, with expert capacity in system level improvement, HR and finance, ready to be deployed at a moment's notice.

Propelo's support is provided on demand. That means you can keep costs low and impact high, by switching on, scaling up or turning off whenever you need.

Real experience, trusted

Propelo is a brand new name. But our experienced team has spent the last decade working within some of the country's top academy trusts, education charities and consultancies. It means we're already known and trusted by the sector.

Together, we've supported hundreds of schools — across all phases and contexts. And it's that blend of first-hand experience, knowledge and thinking that sets us apart.

The most respected sector specialists, brought together for the first time to respond to your challenges. On demand.
